

Product Change Notification

Publication Date: July 1st, 2025

Affected Product(s): ION-R200 Secure Display Station

Dear customer, IONODES is announcing a change to one of its products: the ION-R200 Secure Display Station. The changes included within this PCN are part of our commitment to continuously improving our products, both from a performance and quality standpoint.

Description of change

A new product revision of the ION-R200 has been released and is identified under the IONODES part number ION-DEC-7-0001. Here are the key changes included within this new revision:

- Processor: CPU is updated to a more recent version
- Graphics: GPU is updated to a more recent version
- Video interfaces: Video outputs are now exposed via 1 x HDMI and 1 x DisplayPort (DP)
- New accessories: A DisplayPort (DP) to HDMI adaptor is now included with the product
- Dimensions: Product overall dimensions are now 5.31" x 1.42" x 4.53" (W x H x D)

Reason of change

The previous revision of the ION-R200 included components which were entering end of life (EOL).

Effective date

The new ION-R200 is available immediately for purchase.

Impact on users

- Product dimensions are slightly different (was 4.60" x 1.46" x 4.41" (W x H x D)).
- Users wishing to use two HDMI outputs now require the use of the provided DisplayPort (DP) to HDMI adaptor.
- All software functions remain the same.
- Cosmetic appearance may differ slightly.
- No action is required on customer end – new product revision will automatically be shipped on received customer orders for the ION-R200.
