

We empower retailers with connected video

IONODES provides open-platform retail video solutions that improve safety, deter theft, and safeguard assets. Our reliable, versatile products deliver the situational awareness needed to manage risks like shrinkage, and retail crime, while supporting both loss prevention and operational efficiency.

Creating Safer Retail Spaces

Our secure, cost-effective, and open-platform solutions provide instant visibility into critical areas such as shop floors, stockrooms, and POS terminals, ensuring comprehensive security and operational efficiency across retail environments.

Open-platform body camera solution

A purpose-built body camera that integrates in existing workflows, offers live streaming, and helps de-escalate aggressive situations.

- ✔ LTE, Wifi, GPS technology
- ✔ 12+ hours battery life
- ✔ 5MP Video with 160° FoV
